**Professional Summary:**

Aspiring Full-Stack Developer with hands-on experience in building responsive and dynamic web applications using the MERN stack. Proficient in designing RESTful APIs, managing databases, and implementing user-centric features. Committed to continuous learning and passionate about creating efficient and scalable web solutions. Actively seeking a full-time role where I can contribute to impactful projects and continue growing as a developer.

**Skills:**

- **Programming Languages:** JavaScript (ES6+)
- **Front-End:** React.js, Next.js, MobX, HTML5, CSS3, Tailwind CSS, Bootstrap
- **Back-End:** Node.js, Express.js
- **Databases:** MongoDB, MySQL
- **Tools:** Git, GitHub
- **Specialized:** MERN Stack, REST APIs, JWT Auth, AI, Deployment (Firebase, Netlify)

**Experience:**

**Web Developer Intern at Internship Studio**

Aug 2024 - Nov 2024

- Developed a full-featured e-commerce platform using React.js, Node.js, and MongoDB.
- Built and consumed RESTful APIs to enable client-server communication.
- Ensured responsive design and cross-browser compatibility.
- **Deployed & Live:** <https://skinsaviour-store.web.app>

**Project:**

**AI-Powered E-Commerce Solution**

Jan 2025 - Present

- Developed a full-stack e-commerce web application using the **MERN** stack, offering features like product browsing, cart management, secure checkout, and user authentication.
- Implemented an **AI-driven** chatbot for product recommendations that captures user input and provides suggestions, enhancing user engagement and boosting potential sales.
- Integrated **secure payment gateways** for safe transactions and implemented **JWT**-based authentication to protect user sessions and ensure secure access to user-specific features.
- Built a responsive frontend hosted on **Firebase**, ensuring fast load times and seamless user experience across all devices.
- Deployed the backend on **Netlify**, connecting RESTful APIs to handle business logic and database operations efficiently.
- Utilized MongoDB Atlas for cloud-based, scalable database management.
- Integrated **Twilio** SMS notifications, allowing users to receive real-time updates on orders and status changes.
- Used **Cloudinary** for image storage and management, enabling fast and optimized image delivery across the platform.

**Certification:**

- **MERN Full Stack** - Udemy
- **AI 2.0** - Guvi
- **Python** - Guvi
- **MongoDB** - Great Learning

**Education:**

B.Tech in IT, Mohammed Sathak AJ College of Engineering, Chennai, India (CGPA: 8.01) (2021 - 2025)
